

Free Mega Health Camp & Medicine Distribution

24th of February 2019, Duration of Event : One Day

Location : Panchdeori Block, Gopalganj, Bihar

Project Title

Free Mega Health Camp & Free Distribution of Medicines

Project Summary

This project aims to provide comprehensive healthcare services to the residents of Block Panchdeori, District Gopalganj, Bihar, through a free mega health camp. The camp will offer medical check-ups, consultations, and free distribution of essential medicines to address common health issues and promote overall well-being in the community.

Objectives

- To provide accessible healthcare services to the residents of Block Panchdeori.
- To diagnose and treat common health conditions prevalent in the community.
- To distribute essential medicines free of charge to those in need.
- To raise awareness about health and hygiene practices among the residents.

Target Audience

- Residents of Block Panchdeori, including men, women, and children.
- Vulnerable groups such as the elderly, women, and children.

Project Duration

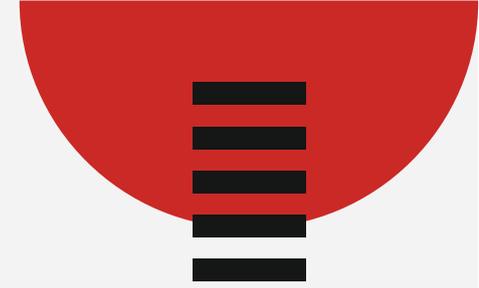

1 day (24th February 2019, Day - Sunday)

Project Activities

1. Health Services

- **Medical Check-ups:** Provide general health check-ups, including blood pressure, blood sugar, and BMI measurements.
- **Consultations:** Offer consultations with general physicians, specialists, and healthcare professionals.
- **Diagnostic Services:** Conduct basic diagnostic tests such as blood tests.

2. Free Distribution of Medicines

- **Essential Medicines:** Distribute medicines for common ailments such as fever, cold, cough, and pain relief.
- **Chronic Disease Management:** Provide medicines for chronic conditions such as hypertension, diabetes, and asthma.
- **Nutritional Supplements:** Distribute vitamins and nutritional supplements to those in need.

3. Health Awareness and Education

- **Workshops and Seminars:** Conduct sessions on topics such as hygiene, nutrition, family planning, and disease prevention.
- **Informational Materials:** Distribute pamphlets, brochures, and posters on health and hygiene practices.

Expected Outcomes

- Improved access to healthcare services for the residents of Block Panchdeori.
- Early diagnosis and treatment of common health conditions.
- Increased awareness and knowledge about health and hygiene practices.
- Enhanced overall health and well-being of the community.
